ENROLMENT IN THE DOCTORAL SCHOOL OF CHEMICAL ENGINEERING

The registration of candidates for the competition of admission to doctoral studies – **field of study: Chemical Engineering** – is done on the online registration platform:

<https://admitere2021.ubbcluj.ro>

between **30 August** and **7 September 2021**

We kindly ask all candidates to fill in the required data correctly, generate the two documents in PDF format, print and sign them, as these documents are an integral part of the application file for the competition of admission to doctoral studies. The electronic completion of the application form and the submission of the generated application form is a **MANDATORY** step for the admission to doctoral studies!

The procedure of admission to doctoral studies also involves the submission/transmission of the (printed) application file to the Doctoral School, except for admission under alert/emergency conditions. The dossier must be complete. The online pre-registration on the platform is not sufficient for enrolment to doctoral studies.

Documents required for the admission competition:

<https://doctorat.ubbcluj.ro/eng/documents-required-when-registering-for-the-admission-contest-2/>
